API Development, Agile Methodologies, Project Management

LANGUAGES

- English (Fluent)
- French (native)
- Hebrew (Fluent)

PROFILE

Senior Full Stack Developer with 7+ years of experience building scalable, high-impact web applications and developer tools. Proficient in modern technologies including React, Next.js, NestJS, Node.js, Ruby on Rails, and TypeScript. Skilled in CI/CD workflows using GitLab, Docker, and cloud platforms such as AWS, Azure, and Firebase. Adept at driving technical strategy, building robust APIs, and improving user experience. Combines a finance background with deep technical insight to deliver business-focused, high-performance solutions.

WORK EXPERIENCE

JD Solutions
PRESENT
Senior Full Stack Developer
- Architected a full-featured monorepo from scratch using Next.js and NestJS, delivering a highly modular and scalable platform
- Designed and implemented CI/CD pipelines using GitLab and Docker, ensuring fast and reliable deployments to multiple environments
- Contributed to cutting-edge features, including the integration of AI agents to enhance user automation and productivity
- Provided cross-functional support and feature development across a stack including Node.js, React, TypeScript, and PHP

Mozzaik365
2022-2024
Senior Full Stack Developer
- Developed 10+ advanced SharePoint WebParts using React, TypeScript, Node.js, and C#, significantly enhancing product functionality
- Built an internal Generative AI solution for content creation, improving communication workflows by 15%
- Optimized Azure CI/CD pipelines, reducing deployment time by 30%
- Slashed support ticket resolution time by 50%, maintaining a 100% client satisfaction rate
- Cut operational costs by 15% through CDN optimization and tech stack refinement

Blastram
2020-2022
Senior Full Stack Developer
- Increased product conversion rates by 30% by automating billing and payment systems using React and Node.js
- Enhanced platform engagement by 45% by building real-time interaction features for live streaming content

IronClic
2019 - 2020
Developer & CTO
- Promoted to CTO within six months, leading the tech team and setting the technical vision
- Led Agile transformation (sprints, retrospectives), improving delivery consistency and team alignment
- Built a drag-and-drop WYSIWYG editor for microsite creation (HTML, CSS, JavaScript)
- Implemented Git-based deployments and CI processes to streamline engineering workflows

FREELANCE

Fiori (fioritlv21.co.il) – E-commerce platform for a flower chain (Ruby on Rails + React); integrated Tranzilla payment gateway

OnlyDeals – Groupon-style deal aggregator with geolocation features (RoR, JS, HTML, CSS)

Capture Cash – Augmented reality mobile app (Mapbox, ARKit, SceneKit, Firebase); included Google/Facebook login
